ROLLING LADDER HARDWARE KIT

Hardware Components Only

Material: Powder Coated Steel

LIBRARIES • WINE CELLARS • KITCHENS • STORAGE AREAS

We have made creating your own rolling ladder system simple and convenient. We've assembled a kit which provides all the hardware needed to build an **8 foot ladder** (9' & 10' also available). From the **whisper quiet top roller and non-marring wheels**, our hardware kits offer unsurpassed quality and value.

**Readily Available
From Stock**

Finishes Available:

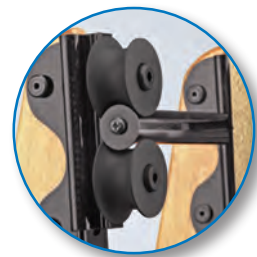

2 ROLLING LADDER KITS AVAILABLE

Ultra-Quiet Bar Rollers

ROLLING HOOK HARDWARE KIT:

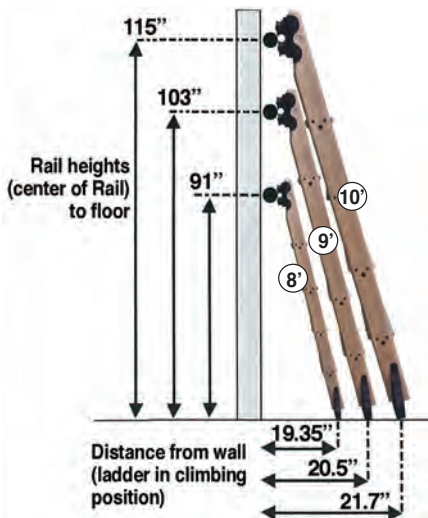

This application is used for multiple sections of track. The rolling **hook** allows you to remove the ladder from one track and move to another track easily and quickly.

ROLLING GLIDE HARDWARE KIT:

This application is used for one continuous run of track. The rolling **glides** are locked onto track once installed.

RAIL HEIGHT AND DISTANCE for 8', 9', 10' standard ladders

Non-Marring Wheel Large (4" Dia.)

Roller With Brake

Brake is applied upon stepping on the ladder and has an adjustable spring to accommodate ladder weight.

Hardware Components Only

Material: Powder Coated Steel

Order your Rolling Ladder In A Few Easy Steps:

Step 1

Choose Your Kit

- Rolling **Hook** Hardware Kit for multiple sections of track

See Page 868 for Rolling Ladder Hardware

Custom, made to order sizes complete with hardware:

The Rolling Ladder is a beautiful addition to any home or business: it endures the rigors of industry yet has the grace and beauty of fine furniture. The standard wood species for the ladder is Red Oak. Steps are screwed to rails (not nailed) and rods are placed under each step, for greater strength. The ladder stores flat against your wall or bookcase when not in use.

- LOFTS
- KITCHENS
- WINE CELLARS
- STOCK ROOMS

ADDITIONAL WOOD SPECIES:

- Mahogany
- Maple
- Birch
- Ash
- Cherry
- Red Oak (Standard)
- Beech
- Hickory
- Teak
- Walnut
- White Oak

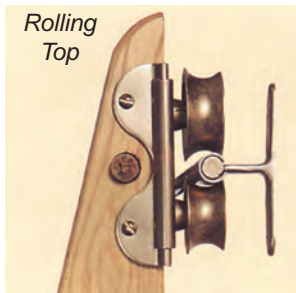

Note: All come unfinished unless specified otherwise

FIXTURE FINISHES

Note: The finish that you choose for your track is the finish that will be applied to all of the fixtures on the ladder.

The top slide feature available in either roll type or hook slide permits the rolling ladder to be pulled out for use or pushed back against shelves to conserve space.

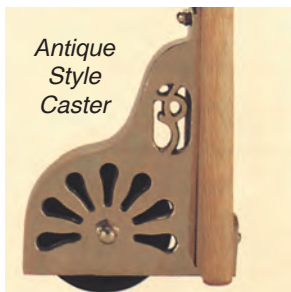

The roll type top fixture is for a ladder permanently attached to the track.

The hook/slide top fixture is used when a ladder needs to be removed from one section of track to another.

The ladder rolls easily with bottom fixtures shown.

Lead time is 5-7 weeks.

NOW LADDER HARDWARE CAN BE PURCHASED SEPARATELY
